WE ARE

WE ARE POLYGON BIKES.

For over 30years, Polygon Bikes have been designing, building and engineering world class bicycles in partnership with engineers, industrial designers, creative thinkers and professional riders based in north America, Europe and Asia. We are passionate about innovation and work hard each season to produce fresh and authentic designs with global relevance. We are one of the few global bike brands that own our manufacturing facilities allowing us to all aspects of the manufacturing process from the craftmantship of hand welding our frames right throught to our leading assembly and painting facilities. Those facilities also allows us to leverage signifivant cost efficiencies that not able to achieve. This results in our ability to offer an extensive range of high quality bicycles you can depend most competitive pricing available in the market. We offer an extensive range of high quality bikes with leading edge.
